The Freddie the Frog 4-Book Series includes:

Freddie the Frog and the Thump in the Night

This book introduces emergent readers to fundamental music concepts in a fun and exciting way. In it, Freddie is a frog who lives with his parents on Treble Clef Island. He is awakened in the middle of the night by a strange thumping noise. Frog-eating crocodiles, a swinging rope bridge, and a humongous gray monster are all part of Freddie's adventure as he explores the

island in search of the thump. Through Freddie's adventures on the island, the reader is introduced to the treble clef staff as a map of where Freddie lives. Readers are captivated as the staff comes to life with the combination of illustrations and enclosed CD narration and music. A bonus of two sing-a-long songs, "Froggie Went A-Courtin" and "Eli's Hokey Pokey", sung by Freddie and friend, Eli, are included on the CD.

Book/CD 2: Freddie the Frog and the Bass Clef Monster

In this adventure, Freddie awakens from hibernation to discover he is not on his beloved Treble Clef Island. Freddie's search for home leads him through Frog Land—a strange place full of bizarre creatures all pointing him to the BasClef Monster who "loves frogs." Discover the dancing bees, a moonlit cocoon garden, the fire-breathing dragon, and dare to meet the Bass Clef Monster. Building on the first book, Freddie the Frog and the Thump in the Night, that introduces readers to the treble clef, the Bass Clef Monster introduces nine notes of the bass clef simply by playing the CD and turning the pages. The lines and spaces represent each

part of this eerie adventure and the sound effects and music bring it to life. Sing-a-long songs included too.
